

DeepLook Forecast: June 22, 2018

Little Valley / Cattaraugus County, NY

Jeremy Fuller, Meteorologist

Friday 22  65	Saturday 23  58 / 70	Sunday 24  58 / 65	Monday 25  52 / 68	Tuesday 26  45 / 70	Wednesday 27  60 / 78	Thursday 28  62 / 80
29  62 / 82	30  65 / 85	July 1–5 Rain July 1, otherwise dry Hot, highs in upper 80s		July 6–12 Some rain Temps uncertain		

Forecast Discussion:

Well, folks, remember when I said that the long range models couldn't be trusted because they were forecasting cooler than normal conditions for this week? Scratch that. They were right. All of last week's week-2 guidance was horribly off. Cooler than average conditions will dominate for most of this week. Expect rain for most of the weekend, sunshine and comfortably cool temperatures for the beginning of next week, and temperatures getting warmer with some rain Thursday, leading into a mostly sunny and hot next weekend.

Normals and Almanac: June 22-July 1

High temperature: 77...78 — Low temperature: 52...54

Sunrise: 5:39—5:43^{a.m.} — Sunset: 8:55^{p.m.} — Daylight: 15^{hr}:16^{min}— 15^{hr}:12^{min} (peak June 16-26)

Latest sunset: June 26, 8:56^{p.m.}

Long-range forecasts are for experimental/entertainment purposes only. No liability is implied.
