

Weekend Outlook & DeepLook Forecast: February 22, 2019

Jeremy Fuller, Meteorologist

Little Valley / Central Cattaraugus County, NY

Sat. 23	Sun. 24	Mon. 25	Tues. 26	Wed. 27	Thurs. 28	Fri. Mar. 1
						
42 18	48 35	25 20	25 10	42 20	30 \	30 18
2	3	4	5 to 8		9 to 15	
			Volatile, rapidly changing weather conditions continue for foreseeable future		Volatile, rapidly changing weather conditions continue for foreseeable future	
50 /	Falling Temps	15 8				

Forecast Discussion

There's really not much else to say here. The weather word of the day is "volatility;" this pattern of constant swings in temperature and conditions is likely to persist well into the foreseeable future.

I do have a tidbit of substantial good news: last week I was concerned about another possible freezing rain event for this coming Sunday—current guidance tells me that conditions will remain above freezing throughout this event, making it all-rain until a changeover to all snow Monday morning.

Normals and Almanac: February 23 to March 4

High temperature: 34-37 / Low temperature: 14-16

Sunrise: 7:00-6:46^{am} / Sunset: 5:58-6:09^{pm} / Daylight: 10^{hr}:58^{min}-11^{hr}:23^{min} (+2.7^{min}/_{day})

Analogs: 1993, 1996, 2002

Daylight saving time begins: March 10, 2:00...3:00^{am} EDT

For experimental/entertainment purposes only. No liability is implied.
